Not working for me either, and the website says you didn't need to register to view the live webcast. I wonder if they have too many people looking. We had the same challenge and then it was fixed once the contractor bought more space (or something like that). So, I would keep checking or email Todd Bryan to let him know the site isn't working.

;) Tami

Hi Greg,
I am doing great, getting ready for a little bit of vacation (starting Wednesday - I will be back in on the 18th of October - so send a message to Rick Parkin if you need anything while I am out). ;)

We are busy reviewing all of the public comments and the comments from the peer review. EPA should be releasing the Peer Review comments soon. We plan to release a finalized assessment sometime in December.

As soon as the peer review report gets released publicly I will be sure to let you know. I know that Judy Smith will be sending out a notification through the list serve as soon as the report is up on our website.

Hope you had a fabulous summer and you are enjoying this wild fall!

Great to hear from you!

Sincerely - Tami
